

909 ACCESSORIES

Filters

Description

Fixed frequency inline LTE filter.

Unit has F type female sockets for ease of inserting into existing system.

Applications

Used to eliminate or reduce interference pickup from signals in the LTE region of 703 to 900 MHz.

Characteristics

Shielded zamak chassis, with female input and output F connectors.

CODE		9090046
MODEL		RB-900
Connection		F female
Frequency range	Band	TV
	MHz	0 - 694
Insertion loss	dB \pm TOL	1 \pm 0,2
LTE band rejection 703-803 MHz	dB	60
DC path	mA	300 max
	Vdc	+ 24 (max)
Operating temperature	$^{\circ}$ C	-10..+65
Protection index		IP 53
